

EMS DOLORCLAST® RADIAL SHOCK WAVE

The world's most clinically proven shockwave technology

EMS invented radial shock wave therapy for practitioners who want to successfully, quickly and safely treat 80% of their patients suffering from a musculoskeletal disorder. The results speak for themselves: since 1999, more than 100,000,000 patients have been treated with DolorClast® solutions. DolorClast® radial shock wave delivers efficient, fast treatments and happy patients.

EMS has helped medical teams worldwide offer the best-in-class care for their patients.

Premium High-Energy Shock Wave

Unmatched performance delivering constant, high-energy impulses up to 25Hz. Designed for versatility.

Patient-centered treatment

Treat muscle injuries or large areas in no time. Overcome pain even in sensitive patients or painful pathologies.

Improved usability, experience and profitability

Comfortable to use, plug and play, integrated dual compressor making it easy to maintain and transport.
