

# bodyblock

Bodyblock fills the gap in the market for a hygienic multidisciplinary, multipurpose support block. Its versatility is on account of different heights on each of its sides creating 5 different elevations. Simply flip it for a different height.

It can be used to support the head, legs, heels or arms and can also be used as knee spacer.

It has applications within the health, beauty and exercise sectors and has the advantage of making the practitioner's task easier whilst keeping the client or patient comfortable and in an optimum position.

- Made from polyurethane
- Can be disinfected with surface sprays or wipes
- Autoclavable
- CE marked and MHRA approved
- Lightweight (just 300g) yet robust enough to elevate the heaviest limbs
- Latex-free

**BODYBLOCK**  
Patient Positioning Device
