4. Click on tests for this particular patient and select the Ankle Brachial Index (ABI) from the "Test Module" dropdown menu (most useful screen for your requirements). Next, select the relevant test site for each test from the "Site" drop-down menu . Once the tests have had the appropriate Site nominated to them, click "Download". Click "Return to Main Screen".

- 5. From the Main Screen, click on "Ankle Brachial Index (ABI)".

7. In the "Print Range" section, use the check box to select the report you wish to print.

If only using the ABI screen, that is all that is required to be ticked. Click "PDF" to export the report as a PDF file or click "Print" to print to the printer set-up on your device.

Example of an Ankle Brachial Index (ABI) screen report.
